

The "Helping Hand" Level

This fund honors Casper, a special barn cat who spends his life admiring his beautiful equine friends while vigilantly patrolling their shared home to keep it free of disease-bearing rodents.

Donations in the amount of \$500 - \$999 will be recognized at this level.

The "Barn Buddy" Level

This level to which a large number of our supporters regularly contribute, honors the vitally important, less glamorous but critical daily needs of our facilities.

Through these gifts we are able to provide basic equipment and replenish ordinary supplies so necessary to our work. Your gift at this level may be used for essential recurring purchases, from mouse traps to duct tape. Donations under \$500

You don't need to own a horse to help.

**HORSE HAVEN OF
TENNESSEE**

You can help us make a difference with your financial contribution.

The “Wee Willie Hitchcox” Level

This level honors our first rescue pony, Wee Willie Hitchcox (aka “M&M”), who came to us so starved we were unable to recognize the fine young Hackney driving pony hiding within the pitiful skeleton we first saw.

Your annual or one time contribution at this level helps us provide needed compassionate, restorative care for an abused or neglected horse, covering costs including veterinary and farrier fees, medication, supplies, supplements, feed and hay.

Donations in the amount of \$1,000 - \$2,499 will be recognized at this level.

“Wee Willie Hitchcox” on arrival

The “Brave Warrior” Level

This level honors the brave grey pony that, even after being dragged behind a truck until bloody and injured, still trusts people.

Your contribution at this level helps us to provide a safe and comfortable weather-protected shelter for injured, ill, and/or emaciated horses as they recover from serious abuse or neglect. Cost may include lease payments, construction, maintenance or improvements for stalls or enclosures,. Your contribution may also be combined with other generous donors to help us continue to provide basic shelter for our rescued equine.

Donations in the amount of \$2,500 - \$4,999 will be recognized in this level.

No animal deserves to be treated this way.

The “Guardian Angel” Level

This fund memorializes Angel, whose rescue from a sweltering field involved hours of terrible suffering because we lacked the equipment required to quickly lift and safely transport her for emergency treatment for heat exhaustion and dehydration.

Your gift to this fund allows us to acquire, operate and maintain the equipment we need to rescue and transport abused and neglected horses and ponies for badly needed care and treatment. Your gift also allows us to properly care for previously donated or loaned equipment such as our truck, tractor, or trailers

Donations in the amount of \$5,000 + will be recognized in this level.

Donors giving at the top three levels will be recognized on a plaque at Horse Haven. All levels will be recognized bi-annually on our web site.
