

Who can join and what are the limits?

- ◇ The program is open to any approved professional or amateur trainer
- ◇ Training facility must pass safety inspection
- ◇ Only geldings can go to a facility that houses studs
- ◇ The trainer can return a horse at any time if it has any mental or physical issues that might put the horse, trainer or general public at risk
- ◇ HHT will financially handle any major medical issues not due to negligence but they must be reported immediately to a HHT official for approval

No inhumane training practices allowed. This would include, but not limited to;

- Hang-tying to break down a horse's resistance and promote a lowered head carriage (by exhausting the neck muscles).
- Riding or lunging to exhaustion
- Excessive spurring, especially with so-called "rock grinders" (extremely sharp spurs), causing bleeding and/or "spur dents" (indentations in the cartilage between ribs).
- Excessive jerking on the mouth, causing injury to the tongue, bars, or lips.
- The use of ANY action devices for gaited or non-gaited horses will not be allowed.
- Excessive jerking on the lead shank, especially when a chain is used over the face or in the mouth, causing injury.
- Excessive whipping or beating, from the saddle or the ground, causing terror or injury
- Hitting about the head, especially with a solid weapon.

I would like to be considered for this program. I feel rescue horses deserve a "Second Chance".
